MJSIC HEALS

YOUR SUPPORT

Over the past 10 years, Music Heals has granted \$2.8 million to music therapy programs in Canada funding over 37,000 music therapist visits for Canadians in need.

Music Heals Charitable Foundation raises awaress and funds for music therapy services in Canada. We are a group of music lovers who have come together with a shared belief in the healing power of music. We seek to increase access to music therapy services that support the mental, emotional, and physical health of clients as young as 28 weeks to 100 years of age in hospitals, rehabilitation facilities, community centres, and schools that serve infants in the NICU, children with autism, at-risk youth, individuals with disabilities, people recovering from addiction, those in hospice, seniors with dementia, and more.
